Objective

A skilled Frontend Developer with 2+ years of experience building scalable, user-centric web applications. Proven expertise in delivering high-quality, responsive, and performance-optimised solutions, and seeking to contribute to innovative projects that drive real user impact.

Experience

YouInSports Remote
Associate Software Engineering *May 2025 – Present*

- Integrated the Stockfish chess engine into a React Native mobile app, enabling real-time move analysis, best-move suggestions, and post-game insights — directly improving competitive gameplay quality for chess users on the platform
- Built a web scraping pipeline using Python to ingest player profile data from ChessResults.com, enriching 1,000+ player profiles with performance history and opponent analytics.
- Delivered an interactive opponent scouting feature that increased user session engagement by enabling pre-match data-driven preparation.

Code Implants Software Technologies Pvt. Ltd Remote
Junior Software Engineer *oct 2024 – May 2025*

- Built a farm-fresh e-commerce platform serving 1,000 active users, using React, TypeScript, and Material UI with Redux Toolkit for state management.
- Implemented product catalog with category-based filtering, cart management with live total calculation, and a secure JWT-based checkout and order-history flow.
- Managed complex application state and REST API integration with Redux Toolkit and Axios, configuring interceptors to attach JWT tokens on protected routes.
- Optimized rendering and built responsive layouts for a consistent UX across mobile, tablet, and desktop.

Software Engineer Intern *Apr 2024 – Sep 2024*

- Reusable components using React, improving code maintainability and reducing development time for new features.
- React-router and React-toastify, enhancing user engagement and experience.
- Authentication, data retrieval, and form handling, ensuring robust and efficient data flow.
- Collaborated with cross-functional teams to deliver features, fix bugs, and improve UI/UX.

Technical Skills

Front-End Technologies: React.js, TypeScript, JavaScript, HTML5, CSS3
Mobile: React Native, Expo
State & APIs: Redux Toolkit, RESTful APIs
AI & Developer Tools: Claude Code, Cursor, Prompt Engineering
UI & Libraries: NativeWind, Tailwind CSS, Material UI, Chart.js
DevOps & Tools: GitHub, GitLab, Verce, Postmanl

Projects

Barne Farms E-commerce Application
Role: Frontend Developer *Tech: React, TypeScript, Material UI, Redux Toolkit*

- Developed an e-commerce application for Barne Farms using React.js, Material UI, and TypeScript with Redux Toolkit for state management.
- Managed global state with Redux Toolkit for cart, user auth, and product filtering.
- Integrated secure backend APIs for user authentication, product management, and order processing.
- Implemented product listing, dynamic filtering, cart functionality, and payment flow.
- Ensured seamless UI/UX across devices and optimized performance for faster load times.

Education

Brahmdevdada Mane Institute of Technology Solapur, India
Bachelor of Technology - Computer Science Engineering; GPA: 8.50 *2021 – 2025*
